Dear parents,

Are you currently experiencing **difficulties in meeting the various expenses** related to your child(ren)'s education?

Depending on your situation and your resources assistance from the social fund may be granted to you.

What is the social fund?

The social fund is designed to provide direct assistance to families struggling with the amount of expenses they have to face, either as a complement to other existing aid (national scholarship, territorial aid, etc.), or to cope with a worsening situation during the school year.

Families who are not eligible for scholarships and who are confronted with life's mishaps can also apply.

What kind of assistance does the social fund provide?

- To cover all or part of the expenses related to canteen or boarding fees
- To ensure a smooth and uninterrupted education for the pupils: professional or sports equipment, school supplies, school transportation, school trips, etc.
- To meet the pupils' basic and essential needs: purchase of glasses, dental care, etc.

Who should you contact?
