vocational department cheers up Montmajour's lunch time

CAP Self

The CAP self is a Cafeteria held by students. It is on the ground floor of the vocational building of Montmajour high school in a dedicated kitchen. This self-service restaurant is supervised by teachers to respect the hygienic conditions and to advise them. It is open from 12:05 am to 12:30 am. The menu is prepared by the students and is different every day. The snack and student formula cost 4€, the formula appetizer with the main dish and dessert cost 5,30€ and there is a supplement for the hot drink. We need to book at the reception of the school.

La brasserie

The brasserie is an alternative to the canteen at lunch time. Everyone can access it, including strangers. Meals are prepared by students who learn how to cook, under the supervision of their vocational teacher. Students do their best learning about hospitality with a friendly service and a gastronomic lunch. Their timetable is very different from ours. Every day they work during lunch. The prices vary according to the formulas from 5€ to 7€, including coffee. To make a reservation, call the school at 04 90 96 80 50.

The restaurant

The "application" restaurant is a small restaurant where students practise to set up the tables, to cook and to serve the food. This restaurant is cheaper than normal restaurants because apprentices work there. It is more sophisticated than the brasserie because the meals are served at the table by apprentice waiters who are supervised by their vocational teacher. The meals are longer and more refined. Prices vary from 9€ to 25€. There are special meals for important events like Christmas. You can ring 04 90 96 80 50 to book lunch and dinner.
